INFORMED CONSENT FOR HOME HEALTH/HOME CARE SERVICES

HOME HEALTH/HOME CARE PHILOSOPHY

I understand that Joy Healthcare provides skilled and non-skilled care.

I understand the goal of Home Health is to treat an illness or injury.

I understand the goal of Home care is to help with recovery, regain independence, become more self-sufficient, maintain current condition or level of function, and/or slow decline.

CRITERIA

Home Health Criteria: I understand that Joy Healthcare will need a Doctor or other health care provider's orders to start Home Health or skilled care. I understand that Home Health or skilled care is provided on an intermittent basis.

Home Care Criteria: I understand that if Home Care or non-skilled care is needed that a Doctor or other health care provider's orders are not needed to start care. Home Care services will be discussed with a Registered Nurse and a personalized plan will be arranged based on needs.

I understand that if during the continued evaluation of the appropriateness of Home Health and Home Care, I no longer meet criteria, I will be discharged. Joy Healthcare and I will formulate a plan for continued care after discharged.

HOME HEALTH/HOME CARE SERVICES

I understand that Joy Healthcare services are primarily provided in the home and may also be offered in a facility by a team of highly skilled professionals. Specialized services may include, but are not limited to, nurses, physical therapists, vocational therapists, speech therapists, social workers, nursing assistants, caregivers, and volunteers. These services are individualized according to the patient's needs, as determined by a doctor, other healthcare providers, and/or Joy Healthcare's interdisciplinary team, in coordination and collaboration with the patient and the patient's family/caregivers.

RESPIRE CARE

Respite Care is provided to give the caregiver a period of rest and is limited to a certain amount of days. The respite stay must be coordinated and authorized by the Joy Healthcare Interdisciplinary Team.

CONTINUOUS CARE

Continuous Care is provided to those patients in a home setting where the patient requires at least 8 hours in a 24 hour time period (midnight to midnight) of continuous care provided by the agency personnel. Continuous Care is coordinated and authorized by the Joy Healthcare Interdisciplinary Team.

EQUIPMENT/SUPPLIES

I understand that Joy Healthcare contracts the services of a durable medical equipment company to provide Home Health covered equipment. I agree to follow Joy Healthcare policy and procedures in obtaining, handling, and caring for equipment supplied by Joy Healthcare. I also agree to supply essential caregiver items such as PPE, including gloves and other basic care supplies. If not provided, I understand Joy Health will supply them as needed and associated costs will be billed to me.

AUTHORIZATION FOR PAYMENT

I hereby authorize that payment be made on my behalf directly to Joy Healthcare Services, LLC. for health insurance benefits otherwise payable to me in connection with the provision of Home Health and/or Home Care services. I authorize the release of all records required to implement this authorization. I understand that I may be responsible to Joy Healthcare for charges (including deductible or coinsurance) not covered by the Health Insurance policy or Medicare.

CHOICE OF CARE

I understand that I may choose care other than the care that Joy Healthcare provides at any time by signing a revocation statement. I will notify Joy Healthcare immediately of a decision to revoke Home Health/Home care services. Such a choice will automatically relieve Joy Healthcare of any further responsibility of providing care to me. I understand that if I fail to sign a revocation statement and to notify Joy Healthcare in a timely manner, I may be held responsible for any and all charges incurred such as ambulance costs, emergency room or hospital cost, procedure/treatment costs, and/or physician costs.

ROLE OF CAREGIVER IN HOME

I understand that the Joy Healthcare team is not intended to take the place of a family, but rather support the primary caregiver and family in caring for the patient. The family maintains responsibility for the day to day care and 24 hour supervision in the home when progression of the disease makes this necessary. The primary caregiver is not necessarily a family member, but understands the role and agrees to undertake that role.

DIRECT EMPLOYMENT OF AGENCY STAFF

I understand and agree to respect the rights of Joy Healthcare Services, LLC. and will not directly employ any staff provided by Joy Healthcare Services, LLC. for current client(s) or for other family members needing service. Once the agreement has been fulfilled between Joy Health and client, staff are not allowed to work with a previous client or family member directly through other channels for 6 months, unless through our agency. If the undersigned is found altering the terms of this clause the undersigned agrees to pay a liquidation fee equal to (26) weeks of service at (40) hours a week, at costs of the hourly price.

PATIENT SELF DETERMINATION ACT

DATE _____ SOC DATE _____ MR # _____
PATIENT NAME _____ DOB _____

PATIENT SELF DETERMINATION ACT

The United States government and most individual state governments have enacted laws that protect the rights of adult individuals to make decisions concerning their own health care. These rights include the right to accept or refuse medical or surgical treatment and the right to formulate advance directive as permitted under the state law. The federal law that guarantees this right became effective on December 1, 1994, and is known as the Danforth Amendment.

AN ADVANCE DIRECTIVE

- Is a living will, a durable power of attorney for health care and/or another written document that is executed by the individual, signed, dated, and expresses the individual's health care treatment decisions;
- Provides a way for the individual to state his/her wishes regarding his/her own health care decision should the individual become incapacitated.

Under these laws, it is unlawful for any person or organization to require an individual to execute advance directives as a condition for receiving services or care. An individual is not required to have an advance directive in order to receive Home Health services.

INDIVIDUALS WHO CHOOSE TO EXECUTE ADVANCE DIRECTIVES SHOULD

- Be as specific as possible about their wishes
- Discuss their wishes with their family members, physicians, and any other person or organization that provides health services;
- Give copies of advance directives to their physician, hospital, home health, and other person or organization that provides health care services.

NON-SOLICITATION STATEMENT

It is Joy Healthcare's Policy to abide by all State and Federal Regulations regarding solicitation of patients for Home Health/Care services.
